RALPH LAUREN HOME

GIFTWARE AND TABLETOP

Presenting an extensive collection of dinner and serveware, gifts and decorative accents distinctly drawing on the vision of enduring style that is signature to the world of Ralph Lauren. The assortment is unique in its breadth of price points and sensibilities, offering everything from the truly exceptional to items designed to enhance the everyday. And whether inspired by time-honored tradition, the utmost in modern sophistication or the beauty of rare objects collected around the world, each piece is crafted in only the finest materials with the greatest attention to detail for the ultimate in artisanal luxury.

KIPTON COLLECTION

Inspired by classic New York establishments, Ralph Lauren's The Polo Bar offers a casual yet refined dining experience in the heart of NYC. From the Henry Koehler polo match-inspired mural on the exterior to the saddle leather and equestrian art inside, the restaurant pays homage to the distinguished sporting lifestyle long synonymous with the Ralph Lauren brand. The Kipton Collection captures this iconic style - from the Bar Box lined in the same plaid wool as featured in the restaurant's dining room, to the cocktail picks inspired by the polo mallets served with cocktails in the bar.

BRENNAN DESK COLLECTION

The Brennan desk collection's understated design is ideal for the modern office and is inspired by Ralph Lauren's timeless leather accessories. All pieces are crafted in hand-stitched, fine grain calfskin and finished using supple leather in an semi-aniline finish which age beautifully with use.

RALPH LAUREN 1955 JAGUAR X KD

The Jaguar X KD, or -Type, was originally developed in 1953 and featured an aircraft style, monocoque chassis. It could reach over 190 mph, making it the fastest racecar of the 1950's. Jaguar -Types have a glorious racing history winning at Le Mans in 1955, 1956 and 1957. The Ralph Lauren car, chassis no. x KD 505/601 finished second at Reims in 1956 and sixth at Le Mans in 1957. This car is appropriately painted in 'british racing green'.

The Ralph Lauren Jaguar X KD at 1:18 scale is exclusive to Ralph Lauren stores worldwide.

RALPH LAUREN 1955 MERCEDES BENZ 300SL GULLWING COUPE

Introduced in 1952, the 'Gullwing' was the fastest production car of its day with a top speed of 161mph (260 km/h). 'SL' stood for 'sport leicht' (sport light). It has an impressive race history, winner of the third Carrera Panamericana Race, Mexico 1952, winner at 24 hours of Le Mans and Nürburgring, also in 1952. It was the first car to use fuel injection directly into the cylinders. The 'Gullwing' was owned by film stars Sophia Loren and Zsa Zsa Gabor. It was ground breaking and iconic in every way, and swiftly became one of the most famous cars in the history of automotive design. The Ralph Lauren Mercedes Benz 300SL Gullwing Coupe at 1:18 scale is exclusive to Ralph Lauren stores worldwide.

RALPH LAUREN 1962 FERRARI 250 GTO

The 250 GTO model was the pinnacle of development of the 250 GT series in competition form, whilst still remaining a road car. It made its public debut at the annual pre-season Ferrari press conference in January 1962, and was the only front engine model on display, with its monoposto and sports racing counterparts all having a mid-engine configuration. The Ralph Lauren Ferrari 250 GTO at 1:18 scale is exclusive to Ralph Lauren stores worldwide.

RALPH LAUREN 1938 BUGATTI TYPE 57SC ATLANTIC COUPE

Jean Bugatti's controversial masterpiece, based on the "aérolithe" concept car, was originally designed in 1935. The Ralph Lauren car, chassis number 57.591 is one of only four Bugatti 57sc Atlantics built. Delivered in 1937 to Richard B. Pope of England, the car still bears the EXK6 plate from its original registration in the United Kingdom. The Ralph Lauren Bugatti type 57sc Atlantic Coupe at 1:18 scale is exclusive to Ralph Lauren stores worldwide.

RALPH LAUREN MCLAREN F1LM

In 1995, the McLaren F1 GTR achieved its place in history by winning the Le Mans endurance race at its first attempt. To celebrate this extraordinary feat, McLaren created a limited edition of just five F1 LMs. As a tribute to the memory of Bruce McLaren, all five of the F1 LMs were painted in the same Papaya Orange color that was used on his contemporary Formula 1 cars. Every detail of Mr. Lauren's personal vehicle has undergone a detailed scan to produce this exact 1:18 scale replica, which is hand-constructed by the British company Amalgam.

MATERIAL INFORMATION AND CARE

RALPH LAUREN X BURLEIGH

Ralph Lauren partners with Burleigh, England's most storied name in pottery, to introduce a new dining and entertaining collection. This is the first time, since its founding in 1851, Burleigh has featured another designer's original patterns on their pottery. The resulting collection is authentically Burleigh, and signature Ralph Lauren.

DESIGN

Graphic motifs are translated through a contemporary Americana lens and applied to hand-crafted pottery through a celebrated process preserved over time by generations of artists. The extensive collection of dinnerware is available in three patterns rendered in two exclusive colorways and is designed to layer and mix.

CRAFTSMANSHIP

More than tabletop, this collection represents a commitment to authentic design and a respect for the way beautiful objects are made. Burleigh is the only remaining pottery in the world to use an exquisitely-refined method of tissue transfer printing, pioneered in England over 250 years ago. In this labor-intensive process, 25 different pairs of hands are needed to create a single tea cup or saucer. Engraved drums are cloaked with colored ink, and rolled onto tissue paper. Then, the tinted paper is hand-rubbed onto unglazed pottery. This technique for transferware produces pieces with unequalled depth and subtlety that are truly one of a kind.

CERAMICS

Ralph Lauren ceramics are produced in limited quantities, using a mix of semi-automatic machinery and hand-craftsmanship. Glazing, decaling and the painting of gold rims are done manually. Processes vary by collection and can result in variances such as:

- If a piece is placed on a small tripod when fired in the kiln (so the process can encompass the entire piece without disturbing the glaze) there may be visible small unglazed dots on the underside of the pieces
- Firing in the kiln without a tripod results in unglazed edges on the underside of the piece
- Decals can sometimes be felt on the surface of a piece and may result in visible seams on mugs and cups under the handle
- The transferware process applies to the Ralph Lauren x Burleigh collection. As the pattern is transferred manually from tissue, there is a tendency for pattern to overlap and varied hand pressure may result in uneven pattern application. A semi-distressed and handcrafted aesthetic is intentional and celebrated on these pieces

CRYSTAL

The finest hand-made crystal and K9 glass will usually have a few small "seed bubbles" and or small indentations on the surface of the glass. These do not constitute a flaw in the piece, but rather are a sign of hand-crafting. Bubbles should never be more than 3mm or in a cluster or at the top of the glass. Glass rim tolerance can be up to +/- 3mm.

Some Ralph Lauren barware is mouth blown and hand cut while other pieces are machine blown and cut. 24% leaded crystal stemware is all mouth blown and hand cut. Weights and thickness may vary slightly from piece to piece.

GLASS

- May have air bubbles and small striations from production process.
- Product wall is thicker than crystal and more unrefined
- Rolled edge thickness at rim may vary +/- 3mm

LEATHER

- Cowhide is minimally treated and tanned to RL desired color and feel
- Imperfections /color variation are due to both the nature of the cowhide and the treatments/workmanship.
- All products are hand-stitched and stitching ends may be visible
- Leather will age naturally as product is handled

METAL

- Silver-plated products are hand-made by artisans. As such, slight imperfections such as buff marks and pitting in polishing and finish may be visible. Certain small marks from holding tools used to hang items in the plating bath may be visible.
- Decorative accents on pieces are soldered on by hand and can also create small pinholes at the seams.

- Cast Brass items may have slight imperfections and pinholes due to its manufacturing process
- Brass and silver plate naturally oxidize and tarnish in short periods of time. Frames are lacquered to delay tarnishing however, lacquer is not food safe and therefore not used on pieces which may touch food.
- Stainless steel, although durable, is susceptible to scratches and buffing marks if not handled gently
- Metal Flatware may display faint marks around the neck of each piece where the item was held in the plating bath. Color may vary slightly from piece to piece.

WICKER

As wicker is a natural material that is dyed there may be slight variation in color from piece to piece. Pieces are hand woven, which may result in visible ends and variations in tightness of the weave.

HOME FRAGRANCE

The Ralph Lauren candle wax formula is proprietary. It is made of a premium paraffin wax blend containing other oils and waxes which makes it a softer formulation. The softer formulation is richer and allows for fragrance to radiate to a larger area. Due to the soft formula, the surface of the wax may not always seem solid. There may be a very light waviness visible on the surface and the lead free wick may be able to move very slightly
